Download, Install and Uninstall

Please download the ccBoard extension/component from our download section.

Download: http://codeclassic.org/the-downloads.html

Once you have downloaded the zip file install the same by using Joomla installation manager. Please see the How-To section for a detailed step-by-step instruction.

To uninstall goto Joomla Administration Panel, select install/uninstall from extensions menu, change to the component tab and select ccBoard and click uninstall.

Enjoy

Thomas
